

1" Rigid Standoff

The 1" (2.5cm) Rigid Standoff is compatible with all standard power feed canopies and surface mount transformers. Use standoffs approximately every 3' (91cm) of Monorail run. For best appearance, place standoffs near rail ends and next to where rails join together. Use rigid standoffs for curved runs or runs with heavier fixtures. Satin nickel, polished nickel or antique bronze finish.

Rigid Standoff

Rigid standoffs are available in heights of 1.9" (4.8cm), 3" (7.6cm), 4" (10.2cm), 6" (15.2cm), 12" (31cm), 24" (61cm), 36" (91cm), 48" (122cm) or 96" (244cm). Standoffs are field-cutttable and best suited for curved runs or runs with heavier fixtures. For best appearance, place standoffs near rail ends and at points where rails join together. Satin nickel, polished nickel or antique bronze finish.

Adjustable Standoff

The Adjustable Standoff provides a clean and minimal look. An integral wire grip adjusts and locks the 12' (3.65m) field-cutttable aircraft cable in place. Best suited for straighter runs. Use a standoff every 3' (91.4cm) of rail. For best appearance, place a standoff at every point where joining two pieces of Monorail. Satin nickel, polished nickel or antique bronze finish.
